## From the Earliest Flying Machines to the Supersonic Jets of Today

Aircraft: The Definitive Visual History is the most comprehensive and visually stunning guide to the history of flight ever published. This lavishly illustrated volume features over 500 aircraft from around the world, each illustrated with full-color photographs and detailed technical drawings.

The book begins with the earliest flying machines, such as the Wright Flyer and the Bleriot XI. It then traces the evolution of flight through the golden age of aviation, the jet age, and the supersonic era. Along the way, readers will learn about the key milestones in aviation history, such as the first transatlantic flight, the first jetliner, and the first supersonic passenger plane.

Aircraft: The Definitive Visual History is a must-have for anyone interested in aviation history. It is a beautifully illustrated and informative guide that will appeal to both casual readers and aviation enthusiasts alike.

## Over 500 Aircraft from Around the World

Aircraft: The Definitive Visual History features over 500 aircraft from around the world, including:

- The Wright Flyer
- The Bleriot XI
- The Fokker Dr.I
- The Spitfire
