Wickman is a world-renowned business coach and author who has helped thousands of businesses achieve success. In his book, he shares his revolutionary way to read quickly, which he calls the "Key." The Key is a simple, yet effective technique that can help you double or even triple your reading speed.

## How The Key Works

The Key is based on the idea that we only need to read the most important words in a text to understand its meaning. Wickman identifies these key words as nouns, verbs, and adjectives. By focusing on these words, you can quickly get the gist of a text without having to read every single word.

To use the Key, simply follow these steps:

1. Start by reading the first sentence of a text.
2. Identify the nouns, verbs, and adjectives in the sentence.
3. Read the next sentence and repeat steps 1 and 2.
4. Continue reading until you have finished the text.

### **Benefits Of Using The Key**

There are many benefits to using the Key, including:

- Increased reading speed: The Key can help you double or even triple your reading speed.
- Improved comprehension: By focusing on the most important words in a text, you can improve your comprehension.
- Reduced eye strain: The Key can help reduce eye strain by eliminating the need to read every single word.
- Increased productivity: By increasing your reading speed and comprehension, you can increase your productivity at work or school.

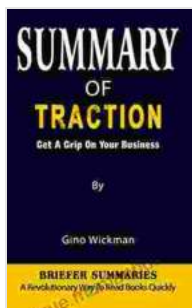

If you're looking for a way to improve your reading speed and comprehension, I highly recommend Gino Wickman's book, *Get Grip On*

Your Business. The Key is a simple, yet effective technique that can help you achieve your goals.
