The Greek alphabet is used to write both Greek and Cypriot Greek. It is also used to write several other languages, including Coptic, Armenian, and Albanian.

Greek Grammar

Greek grammar is complex and nuanced. However, it is also very logical and consistent. The basic rules of Greek grammar are as follows:

- **Nouns** have gender (masculine, feminine, or neuter), number (singular or plural), and case (nominative, genitive, dative, accusative, and vocative).
- **Verbs** have tense (present, past, future), mood (indicative, subjunctive, imperative), and voice (active or passive).
- **Adjectives** agree with nouns in gender, number, and case.

- **Adverbs** modify verbs, adjectives, and other adverbs.

Greek grammar can be challenging to learn, but it is essential for understanding the language. If you are serious about learning Greek, then you should spend some time studying its grammar.

Greek Vocabulary

The Greek vocabulary is vast and varied. It includes words from many different sources, including ancient Greek, Byzantine Greek, and modern Greek. The following are some of the most common Greek words:

- **Ανθρωπος** (anthropos) - man
